Foreign News-Further Advices by the Pacific.

New York, June 12.—The London correspondent of the New York Commercial Advertiser says that the recent great rise in consols was owing to the enormous speculations of parties who were operating for a decline, which had been prevented by a gradual restoration of public confidence.

The weather was regarded as favorable for the growing crops, the late dry spell having been followed by copious showers.

The same writer states that great satisfaction is expressed in consequence of Austria and Prussia being forced into an alliance with the Western Powers; yet there is a strong feeling entertained by many, that in every step they take they are merely acting as the tools of Russia; that their sole object is to hring about peace with increased power to the Czar, allowing him to recommence his aggressions on the first favorable opportunity.

The Riots in New York.

NEW YORK, JUNE 12 .- The first reports of the riots which occurred yesterday, were greatly exaggerated. No one was killed. During the night there was no disturbance in Brook-

Organization of the New City Government of Philadelphia.

PHILADELPHIA, JUNE 12 .- Both branches of the new government of the consolidated city of Philadelphia were organized this morning. A very large assemblage of persons was in attendance. Bishop Potter opened the Select Council with

Prayer. Hon. R. T. Conrad, the Mayor elect, will be inaugurated to-morrow.

JUST PUBLISHED, in one handy volume, all those popular ways of making money, which have claimed so much attention the past year, viz: Prof. Williamson's, Bowman's, Dr. Shrinor's, Dr. Xaupi's, R. H. Harnan, Dr. Reese's; H. S. Holt's, Shipman & Co.'s, Il. P. Cherry's, M. I. Coek's, G. C. Anderson's. All of these have been sold, warranted to yield very heavy profits, from \$5 to \$10 per day. All together, though, it is beyond doubt certain that one, two, or three of them will suit the wishes of each person looking out for some liberally paying business, and thus yield correspondingly double or treble profits. To these have been added a number of new plans, never before published, and equal, if not superior, to the best of the above, and suited to the wants of any who might possibly be unsuited in the first-mentioned.

The work is complete. Satisfaction is guarantied. The whole will be sent to all enclosing \$1, postpaid, to L. M. E. Cooke, Hagerstown, Md. For \$5, 6 copies; 13 copies, \$10.

PROSPECTUS OF THE PREE CITIZEN.

PROSPECTUS OF THE FREE CITIZIN.

A PAPER FOR THE PROPIE.

THE undersigned proposes to publish at the seat of government of Pennsylvania an Independent Democratic weekly newspaper under the above title; and, in announcing this purpose, we doem it proper to refer briefly to a few of the general principles which shall govern our course.

The Scripture teaches that "God created man in his own image," and that all men are consequently brethren. The Declaration of Independence recognises this truth when it declares that "all men are created equal, and that they are endowed by their Orestor with cortain inalicable rights, among which are life, liberty and the pursuit of happiness."

We believe in the Constitution of the United States, which declares its purpose to be "to form a more perfect union, establish justice, insure domestic tranquillity, promote the general welfare, and secure the blessings of liberty," and hold that all its provisions should be construed in accordance with this general purpose.

This was the position and purpose of the sages of the Revolution, and we, their descendants, should labor to secure the blessings of individual liberty and national liberty.

We believe in Democracy—a government by the People and for the People—in the Democracy of free thought, free speech, free conscience, free labor, and free men—in the Democracy which to sustain the interests of a Class, however powerful or imposing its numbers or position. A Democracy which does this, which despises the People, underrates their intelligence, disregards their opinions, and abuses their confidence, we look upon as a pretence and a sham. If man is to be considered merely as a stall-fed animal, to be satisfied when filled with creature comforts, then will free citizens and free laborers be looked upon as a nuisance and an incumbrance; but not whon they are regarded as the life-blood of the Republic. We have been told that such a paper as we propose to print cannot live in the atmosphere of Harrisburg, that the p-lifticians of Pennsylv

STRAYED OR STOLEN!

ON Tuesday night, May 23d, from the premises of Henry Powell, in Mantua, six two car old Steers. One large, rough-made steer, gray ish color, with short tail and cars, and long claws on the hind feet. Two red and white (spotted) steers, very fine looking for their age, but rather small, and one of them cross-eyed. One princip lly white, showing a good deal of the Durham blood in the neck and cars. The other two rather inferior; one dark brindle, and the other light red. Any person finding such Steers, or giving information where they may be found, shall be entitled to a liberal reward, by dropping a line to A. R. GOULD, Hudson, Summit county, Ohio; or to HENRY POWELL, Mantua, Portage county, Ohio. Hudson, May 30, 1854. June 9-24

STRAYED OR STOLEN!

IMPORTANT TO MILL OWNERS.

I AVING received my Letters Patent for an improved method of Dressing Millstones, I am now prepared to furnish Machines to Millers and Mill Owners.

I wil guaranty that any practical Miller can, at the first trial, if he will try, dress a pair of Burrs in half the time that he can do it with the common hand-pick now in use; and that the work done by the machine shall be better than can be done by nine out of ten of the best handlers of the common pick. The machine makes a clean, clear, thread-like mark, and does not brittle up nor break the face of the stone. It can be controlled at the will of the operator, instantly to make the most delicate lick or one with the force of ten pounds, if required. Every practical Miller knows that a stone is only required to be dressed where the proof staff indicates. This can be done by the machine, no matter how brittle or tender, or how close and hard the face or place on the stone may be, the operator can face it down, or touch as lightly as he pleases. There are three very good reasons for trying them:

First. With fair use, the machine will last twenty years. Second. It is complete within itself, and will not take five minutes, nor cost five cents to try it. Third. I give with the machine hirty tools, or pick-blades, which will last any two pair of stones, to be dressed twice a weez, for two years, and then any good smith can replace them for twenty-five cents apiece.

I have used this machine in my-mill for nearly fourteen months, to dress both the face and the furrows of two pair of four test French Burrs, and there has been no hand-pick used on them in all that time. I know that I make a good yield, and I think the reputation of my mill will warrant me in saying that I turn out a first-rate article of Flour

I have a medal awarded me for the invention of an ingenious and useful machine for Dressing Milstones, by the Commissioners appointed at the exhibition of the World's Fair, in the Crystal Palace, at New York city, besides flattering certi

the World's Fair, in the Crystal Palace, at New York city, besides flattering certificates from all I have sold the machine to.

Having recently obtained Lettors patent, I am now prepared to furnish the machines, and to sell State, county and shop rights.

All orders must state the diameter of the mill-stones, and the size of the collar of the spindle. The price of the machine, with thirty tools, is \$125.

This is to certify that I have been employed in the O'Fallon Mills for the last ten months, as Miller, during which time I have had a fair opportunity of testing Mr. J. G. Shands's Patent Mi Istone Dresser. I know, by experience wit's the machine, that there is not only economy in time and tools, but the stone may be kept in perfect face, and a fine, ever, sharp, grinding dress put on in less time and labor than with hand picks; besides, it takes very little practice to handle the machine, and any one who has experience enough in milling to know what is required to sharpen the face of a stone for grinding, can very soon learn to do a good job with the machine.

Kastman's Infallible Nick Headache Remedy. Eastman's Infullible Nick Headache Remedy.

This preparation, by E. P. EASTMAN, M. D., of
Lynn, Mass., has been used in private practice
for the last four years, with the greatest success. A
radical cure has been effected in every instance where
the directions have been strictly followed and persevered in. It is now given to the public with the full
confidence that it will do all that is claimed for it,
and prove itself, upon fair trial, an infullible Sick
Headache Remedy.

It is safe and pleasant to the taste, it brings immediute relief, and all who test its curative virtues rejoice in the remova of pain, and marvel at its power
in alleviating so general, and often so fatal, a scourge

DEAR SIE: A member of my family—a daughter, ten years of age—was afflicted with the sick headache, and we tried various remedies without success. When, however, you administered to her your "Headachs Powders," we found them to be very beneficial, and in fact, restored her to health.

I should, without hesitation, recommend them to those afflicted; and I beg to assure you, that I fully

Dr. E. P. Eastman.

My Dear Sir: I avail myself of this opportunity to express to you my high appreciation of the efficiency and value of your Sick Headache Remedy. I have been afflicted, since my childhood, with very severe turns of sick headache, and have tried various remedies which have been prescribed, but found no considerable relief until I tried your remedy, which, I am happy to say, has almost entirely cared me. Several of my neighbors and friends have tried your medicine, and in every instance it has entirely relieved or greatly mollified the diseaso.

Faithfully yours.

SEWING MACHINE FOR SALE CHEAP.

WE have deposited with us, for sale, one of Avery's superior Sewing Machines, and are authorized to dispose of the same as a great bargain. This machine is considered one of the best now in use. We amen herewith the recommendation of some of the principal wholesale merchanttailors in New York city. New York, July 30, 1853.

We, the undersigned, do hereby certify that we have examined the "Avery Sewing Machine." and cheeffully recommend it for its simplicity, durability, and escecially for the peculiar stitch made by it. The stitch is original, and in appearance is like the most perfect and handsome "back-stitching." We have thoroughly tested the strength of the sewing, and are satisfied that the stitch of this machine makes a stronger and firmer seam than can be made by hand. We take pleasure in recommending this Machine to our friends, and to tailors, seamstresses, and families generally, throughout the country.

From the United States Argus.

To those persons who may visit Washington, and are in want of a boot that cannot be excelled, either in quality or workmanship, we would call their attention to the card of Henry Janney, to be found under the head of "Washington." A handsome and neatly-made boot is not at all times a source of pleasure to the wearer, but often one of extreme torture; this is caused by the bungling manner in which the boot is fitted to the foot. Mr. Janney has devoted much of his time in studying the construction of the human foot, in order to ascertain how a boot should be cut and fitted, that will be perfectly easy to all parts of the foot. In this he has succeeded, so that it matters not what may be the shape of, or the number of corns on the foot, his boot is perfectly easy. Thus he has on the foot, his boot is perfectly easy. Thus he has combined beauty with comfort.

THE CONFLICT OF ACES!

BY DR. EDWARD BEECHER. This Remarkable Work has reached its Fifth Edition, in the brief space of Four Months! A success unprecedented in Theological Pub-

A success unprecedented in Theological Publications!

A N impression has already been produced by this masterly treatise, the most protound, wide reaching, and permanent.

It is perfectly manifest to all competent observers, that we are upon she eve of a theological discussion, the most comprehensive, radical, and portentous, the world has ever seen. To this discussion this book leads the way, with a momentum irresistible. There is not a question in Theology which is not destined to come up for a new and thorough settlement in the light of this final development.

All those who have Theological doubts and difficulties should examine the solution this work affords. Those who have no doubts, but who wish to study the history of opinions in the past, and to keep pace with the developments of opinion in the future will grievously err if they neglect to make themselves familiar with this book. It contains the seeds of the thinkings and debatings of the next hundred years.

The reception of this work by the The logical press of the country, has been significant. Equally declining to accept his conclusion, they do it on opposite and contradictory grounds. One half of the Theological press endorses the major premise of the argument, and denies the minor. The other half endorses the minor, and denies the major. And as they are probably both right in their positive element, and wrong in their negative, the work has received a Virtual Endorsement of the most powerful kind.

As regards the ability of the work, and its claims on the attention of all, the following extracts may suffice:

From the Princeton Repertory—Old School Orthodox.

From the Princeton Repertory—Old School Orthodox.

It is characterized by great ability, by an earnest spirit, by frankness, candor, and courtesy. It has a special interest for us. WE HAIL IT AS AN ALLY. The author shuts his readers up to the choice between Orthodoxy and the doctrine of Pre-Existence.

Orthodoxy and the doctrine of Pre-Existence.

From the Universalist Quarterly and General Review, Jon., 1854.

We have the novel spectacle of a man clinging with a masterly grasp to all the fundamentals of Orthodoxy, * * * yet dealing it a blow beneath which it reels.

It would be difficult to find within the limits of a hundred pages any treatise or essay that can compare in importance with this analysis (B. iv) of Orthodox doctrines. Dr. Beecher has struck upon the right principle in his theory of typical interpretation, in the fifth of Romans.

Those who are not judges of goods cannot tail to be impressed at once with the manifold and vast advantages to the purchaser resulting from the adoption in good faith of the one price system, it necessarily insures low prices to the purchasor, for it becomes absolutely necessary to meet at the start all competition that can be offered in prices.
